HAPPY BIRTHDAY LIONS

**SMILE**

A young bride and groom-to-be had just selected their wedding rings. As the young lady admired the plain platinum and diamond band she had chosen for herself, she suddenly looked concerned. "Tell me," she asked the rather elderly salesman "is there anything special I'll have to do to take care of this ring?" With a fatherly smile, the salesman said, "One of the best ways to protect a wedding ring is to soak it in dishwasher."

The teacher of the Earth Science class was lecturing on map reading. He spent the class explaining about latitude, longitude, degrees, and minutes. Towards the end of class, the teacher asked his students, "Suppose I asked you to meet me for lunch at 23 degrees, 4 minutes north latitude and 45 degrees, 15 minutes east longitude..." A student's voice broke the confused silence, and volunteered, "I guess you'd be eating alone, sir."
