**HOW OLD IS A TREE? (FIND OUT WITHOUT CUTTING)**

Did that grand white oak tree in the woods live through the Civil War? That would be 159 years ago. A white oak can live up to 300 years. So it's possible.

We can calculate the age of the white oak if we know its circumference and growth factor. The circumference of a white oak has to be 100 feet for it to be 159 years old. But that is only for a white oak. Other trees grow at different rates.

Here's how to do the tree age math: Using a tape measure, find the circumference of the tree (starting four feet off the ground). Divide the circumference by 3.14 (pi) to find the diameter. Now multiply the growth factor by the diameter.

Here are growth factor rates for some common trees: 2.0: Aspen, Cottonwood 3.0: Silver Maple, Pin Oak, Linden 3.5: River Birch 4.0: American Elm, Green Ash, Red Oak 4.5: Black Walnut, Red Maple 5.0: Sugar Maple, White Birch, White Oak, Black Cherry 7.0: Dogwood, Ironwood, Redbud

**SMILE**

Earl and Bubba are quietly sitting in a boat fishing, chewing tobacco and drinking beer when suddenly Bubba says, "Think I'm gonna divorce the wife... she ain't spoke to me in over 2 months." Earl spits overboard, takes a long, slow sip of beer and says, "Better think it over... women like that are hard to find."

One day an Englishman, a Scotsman, and an Irishman walked into a pub together. They each bought a pint of Guinness. Just as they were about to enjoy their creamy beverage, three flies landed in each of their pints, and were stuck in the thick head. The Englishman pushed his beer away in disgust. The Scotsman fished the fly out of his beer, and continued drinking it, as if nothing had happened. The Irishman, too, picked the fly out of his drink, held it out over the beer, and started yelling, "SPIT IT OUT, SPIT IT OUT, SPIT IT OUT!!!"

A man went to the doctor complaining of insomnia. The doctor gave him a thorough examination, found absolutely nothing physically wrong with him, and then told him, "Listen, if you ever expect to cure your insomnia, you just have to stop taking your troubles to bed with you." "I know," said the man, "but I can't. My wife refuses to sleep alone."
